B.º NARDINI DISTILLERIA AVAPORE

— dal 1779 —

Grappa is obtained from the distillation of the grape "pomace". The "unaged" grappa with its young and fresh taste remains the undisputed market leader in the sector of premium grappa's with a 40% alcohol by volume. Over the years the range has grown to include the "Riserva" which is aged in Slovenian Barrels for 3 years and "Riserva 15 anni", an especially elegant grappa aged for 15 years in Slovenian Barrels.

Later an assortment of liqueurs and aperitifs accompanied this line of grappa. The "Aqua di Cedro" is a premium blend of fruit distillates, particularly infused citron peels. This liqueur is wonderful served cold and is an ideal ingredient for cocktails and long drinks.
